Engineers, Technical

Database Engineer II
Nationstar Mortgage LLC
Irving, TX office
Expected to play a key role in facilitating data requirement meetings with business and technical stakeholders and resolve conflicts to drive decisions. This person will be working closely with Data Services portfolio and delivery managers. This person will participate in all IT and Business-related discussions in understanding the data generation (upstream) and data consumption (downstream). This position is critical to driving the strategic value in laying strong foundational models, providing clear directional path to Data Integration (ETL) team to develop jobs; in helping Database Administrators (DBA) in ease of maintenance and in operations such as loading and extracting data into those; and in providing inputs to the Architecture team for designing the solution.

Position requires a Bachelor's in Computer Science, Electronic Engineering or a closely related field (foreign equivalent acceptable) and 5 years of progressively responsible experience or a Master's in Computer Science, Electronic Engineering or a closely related field (foreign equivalent acceptable) and 2 years of experience. The experience that is required must have involved the following: developing data models and datawarehouses; locating data sets and preparing data and defining the specifications to prepare data from multiple sources: scripting, database management, and queries; using ERWin and Infosphere DataArchitect; working with relational databases in creating DDLs and Access paths – DCL; modeling multi-source Systems of Record integration into single 'source of truth' data architecture; modeling SCD – type 2 for tracking historical changes; managing all aspects of call sizes and complexities of multiple projects simultaneously across the software development life cycle phases (SDLC); interviewing business partners and setting and managing expectations in relation to deliverables and requirements; Agile development methodologies and software project life cycle and associated methodologies; and working as a data analyst with modeling experience.

To apply, please send resume to Nationstar Mortgage LLC, Attn: J. Jaquays, Req #: 4035, 8950 Cypress Waters Blvd., Coppell, TX 75019.

Engineer II
Nationstar Mortgage LLC
